PRODUCTION

2 lines

of mineral wool
production

“Gamma Meccanica S.R.L.”
and “STMtenova”
(Italy)

3 lines

of sandwich panels
production

“Robor S.R.L.”
(Italy)

Line

of painting galvanized
steel metal sheet from
“O.M.S. A”
(Italy)

Line

of angle sandwich
panels production

Annual production capacity

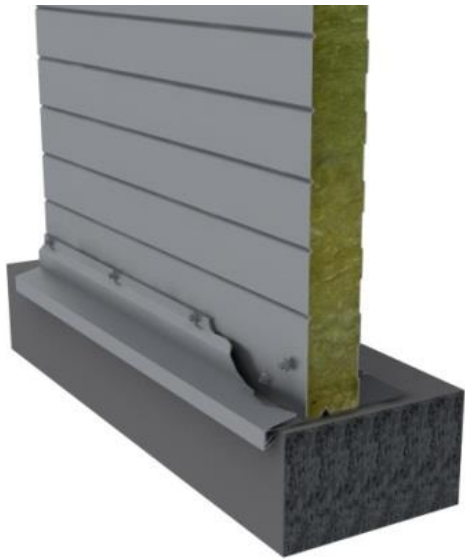

up to **6** mln m²
of sandwich panels

up to **60** ths tn.
of mineral wool

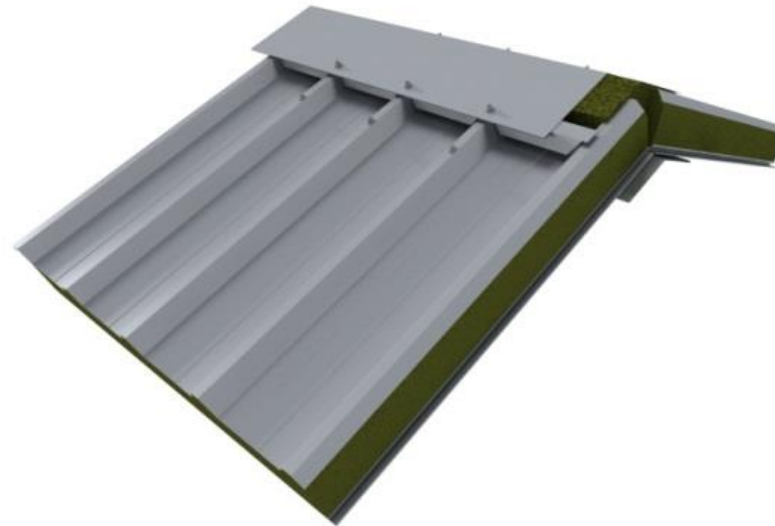

1,7 mln m²
of painted metal

CONCEPT

ABSOLUT

Teplant^o

UNIVERSAL

OPTIMA

TEPLANT-ABSOLUT

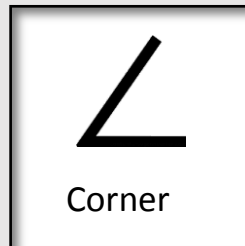

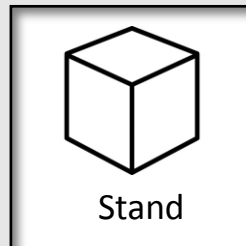

for facilities of higher complexity

PREMIUM

CHARACTERISTICS

Metal gauge **0,7** mm

Density of insulation **up to 145** kg/m³

USE

- facilities of nuclear energy industry
- hydro-technical facilities
- airports and other aviation infrastructure facilities
- space industry facilities
- public railway transport facilities
- thermal power station facilities
- dangerous production facilities (oil, chemical complex)

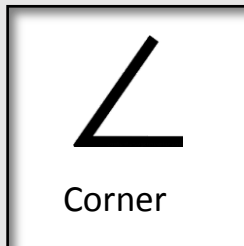

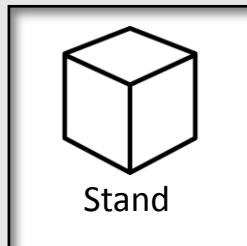

TEPLANT-CONCEPT

to build wide variety of facilities

CHARACTERISTICS

Metal gauge **0,5-0,7** mm

Density of insulation **up to 120** kg/m³

USE

- industrial buildings
- logistic complexes
- sports complexes
- shopping malls
- car showrooms

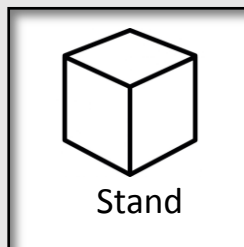

TEPLANT-UNIVERSAL

to build wide variety of facilities

CHARACTERISTICS

Metal gauge **0,5-0,7** mm

Density of insulation **up to 110** kg/m³

USE

- refrigerated rooms
- warehouses
- agricultural buildings
- showrooms
- gas stations
- administration and amenity buildings
- logistics complexes

TEPLANT-OPTIMA

for general-type service facilities and internal partitions

NEW

CHARACTERISTICS

Metal gauge **0,4-0,7** mm

Density of insulation **90** kg/m³

Stand

USE

- internal partitions
- administration and amenity buildings
- showrooms
- gas stations
- warehouses
- refrigerated rooms
- agricultural buildings

PERFECT
CHOISE
FOR PRIVATE
CONSTRUCTION

TEPLANT-DUET

to decorate building facades and entrance groups

With the mounted facade system Teplant Duet, it's possible to use cartridges of varying shapes and sizes and create voluminous shapes of any complexity.

PRODUCT

VATTA RUS

Insulation based on basalt fiber

 **vatta**^{RUS}

PRODUCTS

Teplant

Panels up to 14 m in lengths

Lamellas 2 m in lengths

Customised color solutions and unique coatings

Extra options to decorate facades

Corner panels

Panels with Shadow locking-technology

Pannels with Z-locks

Panels with lock «Secret fix »

Panels up to 300 mm thick

defined in the standard GOST

TECHNOLOGIES & SERVICE

Complete production
cycle

5 year warranty

Quality management
system

Personal technical
solutions

Supervised installation

In Russia and abroad

19 000

facilities

have been built with the help of Teplant

for April 2018

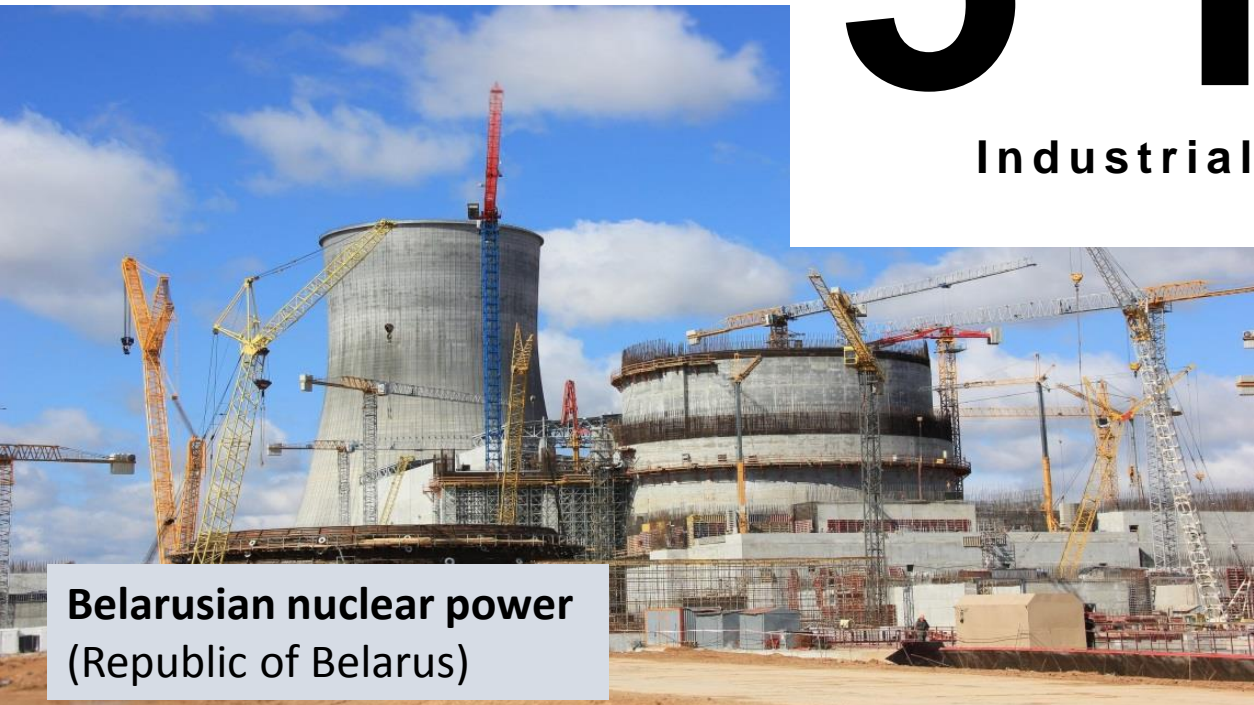

Bosch plant
(Samara)
